

Dear Parents,

The Year 2020 has been a challenging year for our MACC community including the wide-ranging impact that COVID has had on the local community, for Australia and across the world. We have been very appreciative of the manner in which parents and carers have worked closely with teachers and staff to ensure we can journey through this period in a positive manner.

However, in spite of the impact of COVID, the College has continued to move forward. The College has seen growth in areas of academic success, student numbers and participation from our school community. We have undertaken a number of projects to facilitate growth including continued upgrades in our Information Technology, refurbishments of classrooms, the construction of two classrooms, the extension of the Prep area and the addition of the pirate ship in the primary play area.

Each month the College Board meets to discuss the strategic direction of the College and is instrumental in driving change and improvements in the areas of academics, administrative processes, additional program offerings and parent engagement.

With growth continuing there are encouraging challenges that the Board continues to work through such as the long term master planning of school buildings, the changing nature of technologies and the continual strive to maintain a vibrant school culture. Our Stage 1 of the Masterplan will provide Administrative and Community facilities along with additional classrooms and teaching spaces.

Whilst in recent years the College has increased fees by 5% to cover the increase in costs in delivering education, including the increase in classrooms costs, information technology advances, building and construction projects and staff wages, the College Board is aware of the financial impact on families in this uncertain time.

The College also understands that the 25% fee relief that was provided to families in Term 2, 2020 was an immediate relief for families and beneficial during the move to online learning and then back again to classroom learning.

For 2021 there is a required salary increase for staff, balancing this along with possible financial pressure on families we will only be increasing our fees by 4% and we are pleased to offer an additional fee relief of 25% off the tuition fees for Term 1, 2021. The College will contact families at the beginning of Term 1, 2021 with their updated fee statement and the process to access the fee relief.

Please note: The 25% Term 1 discount along with the 4% fee increase will mean the total fees paid for 2021 will be in total less than the scheduled 2020 school fees.

Please find enclosed a fee schedule that outlines the fees for 2021. We have an exciting future with growth and strength at MACC key to our ongoing planning and creating the best possible learning environment and opportunities for our children now and into the future.

Yours sincerely,

Mr Andrew Gray
Chairman of the Board
